

# Earth's Climates

- |  |  |  |
|--|--|--|
| <b>Humid Tropical Climates</b>   | <b>Dry Climates</b>  | <b>Cold Polar Climates</b>   |
| <span style="display:inline-block; width:15px; height:15px; background-color:red; border:1px solid black;"></span> Wet Tropical (Hot and very rainy all year)                              | <span style="display:inline-block; width:15px; height:15px; background-color:orange; border:1px solid black;"></span> Arid (Desert climate with very little rain)                  | <span style="display:inline-block; width:15px; height:15px; background-color:purple; border:1px solid black;"></span> Subpolar (Always cold and dry with short, cool summers)                |
| <span style="display:inline-block; width:15px; height:15px; background-color:orange; border:1px solid black;"></span> Wet-and-Dry Tropical (Hot all year with wet and dry seasons)         | <span style="display:inline-block; width:15px; height:15px; background-color:yellow; border:1px solid black;"></span> Semiarid (Semi-desert climate with some rain)                | <span style="display:inline-block; width:15px; height:15px; background-color:lightblue; border:1px solid black;"></span> Polar (Ice cap, with freezing temperatures all year)                |
| <b>Subtropical Climates</b>  | <b>Midlatitude Climates</b>  | <b>Highland Climates</b>   |
| <span style="display:inline-block; width:15px; height:15px; background-color:green; border:1px solid black;"></span> Humid Subtropical (Hot, humid summers and mild winters)               | <span style="display:inline-block; width:15px; height:15px; background-color:lightgreen; border:1px solid black;"></span> Temperate Marine (Mild and rainy all year)               | <span style="display:inline-block; width:15px; height:15px; background-color:pink; border:1px solid black;"></span> (Temperature and precipitation vary greatly with latitude and elevation) |
| <span style="display:inline-block; width:15px; height:15px; background-color:yellow; border:1px solid black;"></span> Mediterranean Subtropical (Hot, dry summers and mild, rainy winters) | <span style="display:inline-block; width:15px; height:15px; background-color:lightgreen; border:1px solid black;"></span> Humid Continental (Warm summers and cold, snowy winters) |  |
|  | <span style="display:inline-block; width:15px; height:15px; background-color:lightblue; border:1px solid black;"></span> Subarctic (Short summers and long, cold, snowy winters)   |  |
